PERFORMANCE FABRICS

- Stain resistant
- Liquid repellent
- Easy to clean
- Soft and comfortable
- Exceptional durability
- Affordable

Worry free fabrics that can stand up to real life!

PERFORMANCE FABRICS

Family Life Performance Fabrics are designed to stand up to real life. Enjoy your new upholstery without worry, knowing that it's fully protected for stain resistance and cleanability, as well as durability. Family Life fabrics can handle whatever life throws at them!

STAIN RESISTANCE AND CLEANABILITY

Family Life performance fabrics use innovative technology to create a barrier of protection that repels spills before they turn into stains, keeping your furniture beautiful, clean, and soft to the touch. This technology combines a performance fiber with a performance finish to give the fabrics inherent durability and longevity. Spills bead up, sitting on top of fabric until they are gently blotted with a cloth for cleanup.

- Liquid repellent
- Stain resistant
- Designed for heavy duty wear
- Barrier protection to keep your fabric clean

TESTING

Family Life fabrics meet or exceed ALL applicable upholstery industry standards. These include abrasion, seam slippage, tensile strength, light fastness, color fastness and pass all the latest state and federal Fire Resistance standards.

Cleaning and Care Instructions

All spills should be treated promptly for best results and ease of removal.

FOR LIQUID SPILLS (wine, coffee, milk, soda, tea, etc.) Most spills can be cleaned by gently lifting the spill with a paper towel, or a clean, dry, absorbent cloth. If this does not completely remove the spill, use a water based soap mixture that combines 1 tablespoon of a liquid laundry detergent with 2 cups of warm water. Dampen the cleaning cloth in the mixture and gently blot the soiled area. Avoid rubbing the affected area aggressively. Rinse the area with a clean, damp cloth to ensure that all of the soap residue has been removed. Do not over wet the material. Pat dry with a second dry cloth. For stubborn stains, use a multi-purpose cleaner such as Woolite fabric and upholstery cleaner, and gently brush with a soft bristle toothbrush.

FOR NON-LIQUID SPILLS (ketchup, ice cream, jelly, mud, etc.) Immediately remove the excess spilled material from the fabric by lifting it off with a butter knife or spatula. The removal of dried non-liquid spills may require the use of a soft brush or butter knife on the affected area before following with any wet treatment. After removal of the spilled material, repeat the process of cleaning with water based soap mixture as described above.

*Note that pile fabrics may require that the entire panel be cleaned in a seam to seam fashion in order to restore the overall appearance of the fabric.

*Seat decking material under cushions is not a performance fabric.

* Mustard, ink, oil, grease, lipstick, wax, pencil, crayon, and other oil based products may not be completely removable from Family Life fabrics.

*Permanent markers are designed to be non-removable, and therefore cannot be removed from Family Life fabrics.

*Do not use bleach to clean Family Life fabrics. This will result in discoloration of the fabric.
