

Craftmaster Frame Construction

A - Hardwood frame consisting of hardwood rails and hardwood laminates.

B - Heavily padded arms.

C - Double tie wires on back & seat springs for additional support (some styles utilize webbing in backs, as design dictates.)

D - Heavy gauge sinuous wire springs for durability and comfort.

E - Heavily padded in-back.

F - 100% Dacron polyester fiber back cushion encased in a sewn ticking with separate compartments to prevent fiber from settling to the bottom.

G - 2.0 density high resiliency foam core with Dacron fiber wrapping (Industry standard is typically 1.8.) Free of fire retardant chemicals. Blend Down cushion or Soft Seat cushion on select styles.

H - Padded edge roll.

I - Insulated seat pad for added comfort.

J - Joints are interlocking mortise and tenon and corner blocked for durability.

K - Exposed wood, decorative legs are securely mounted to the base of the frame.
