- Quilted damask cover

- 5 inch mattress thickness
- Responds to body heat and conforms to your body contours for better support
- Supports your body, allowing tense muscles to relax comfortably
- Encourages proper posture, redistributing weight evenly, relieving pressure points
- Breathes, dispersing heat and moisture for fewer night awakenings
- Unique recovering memory foam slowly springs back into shape
- Hypoallergenic

SLEEPER MECHANISM:

1 **Engineered Low-Profile Linkage**

Keeps all metal parts below the mattress line, while being the easiest in the industry to operate.

2 **Double-Locking TV Headrest**

Provides added comfort while lounging or watching TV by raising the upper body. To reduce field failures, the headrest also restricts the unit from being cycled while in the “up” position.

3 **Body-Support Tube and Direct-Attach Wires**

Together they enhance support in the body section to eliminate sagging. The welded offset tube keeps the unit square and enhances unit strength.

4 **Contoured Seat Section**

Offers a wider seating area by allowing seating close to the arm.

5 **Optional Seat-Support Wires**

Provides support while sleeping, plus adds durability to the overall unit. Support wires also give the quality feel of stationary seating.

6 **All-Round Tubular Frame Construction**

Provides a smooth and visually appealing look with improved safety (eliminated pinch points) and comfort in the seated position.

7 **Pro-Deck™**

Two-ply ballistic decking material enhances durability and visual appeal.

8 **Dual One-Piece Round Tubular Legs**

Provides enhanced stability and strength, allowing the unit to be operated from the center or side position.

9 **Anti-Tilt**

A necessary safety feature, keeping the unit in contact with the floor at all times in the open position.
