2026 SPRING
CATALOG

A Collection Worthy Of The Paula Deen Name

.....

You're invited to make yourself at home.

Hey y'all. I'm Paula Deen. In case you don't know who I am, I'm a girl with this philosophy...I like to treat my family like company, and I like to treat my company like family, which has inspired this whole line of furniture. I like for everybody to feel comfortable like they've just come home after a long time away.

You can definitely tell that this furniture has been inspired by my life in the South and my home here in Savannah. I really do think you're gonna love it as much as I do. It's all about feeling good, safe, and comfortable in one's home. And just like my food, I send you comfort and love from my home to yours.

.....

After all, who knows your home better than Paula Deen?

IT'S WHAT'S INSIDE THAT COUNTS.

This fine furniture features environmentally friendly products designed with you in mind.

EarthCare Inside embraces components created from renewable or recycled materials.

What this means to you is a smaller environmental footprint
while maintaining the highest quality value.

Cushioning

With the world's first bio-based foam developed by Hickory Springs you now have cushioning made using soybean based polyol instead of petroleum based polyol. The result is a product that reduces dependency on oil and takes 60% less non-renewable energy to create. Tests confirm that bio-based foam cushioning retains its initial properties longer and therefore is more durable.

Sinuous Wire Springs

Steel springs are manufactured from 50% or more recycled steel.

Sleeper Mechanisms

70-80% of the steel used to manufacture the sleeper mechanism comes from recycled steel.

Sleeper Mattresses

Innerspring base is manufactured from 50% or more recycled steel. Polyester fiber comfort layers are made from recycled plastic bottles.

Fiber Back Cushions

Back cushions are made from virgin polyester fibers.

Frame

All hardwood frame constructions comply with formaldehyde emission standards and are TPC (Third Party Certified) under EPA TSCA Title VI

Packaging

Packaging materials consisting of cardboard, nonwoven inner liner and plastic outer liner are 100% recyclable.

CertiPUR-US Certified

All polyurethane foam components are certified to meet content emissions and durability standards of CertiPUR-US. <http://certipur.us>

**As part of the ongoing commitment to our environmental initiatives,
as of 6/1/14 all Craftmaster products manufactured do not contain
fire retardant (FR) in any of the foam based components**

FRAME CONSTRUCTION

Features & Benefits:

- * Hardwood frames consisting of hardwood rails or hardwood laminates
- * Joints are interlocking mortise and tenon and corner blocked for durability
- * Heavily padded arms, inside backs and edge roll
- * Heavy gauge sinuous wire seat springs with double tie wires and an extra row next to the arm for additional seating comfort and durability
- * Tie wires on back and seat springs for additional support (some styles utilize webbing in backs, as design dictates).
- * 100% Dacron polyester fiber backs encased in cotton ticking with separate interior baffles to prevent fiber from settling to the bottom.
- * Blend Down Seat Cushion featuring a 50/50 blend of fiber and the highest quality hypoallergenic feathers (90% duck, 10% goose down) surrounding a 2.0 density, high resiliency foam core. Each cushion is encased in a super soft, cotton, down proof ticking (not included on ottoman cushions).
- * Toss pillows are a blend of 50% fiber and 50% feathers encased in a cotton sewn ticking
